

## TCM Forklift Parts

TCM Forklift Parts - Forklift trucks are an important player in the material handling field of each global industry. Transporting industrial goods takes place each and every day on our busy planet. First innovated as industrial vehicles in the 1930s in the United States, forklifts gained popularity after World War II during the 1940s. Becoming a reliable and efficient means to material handling solutions, the practicality and need of these equipment spread internationally.

First founded as Toyo Carrier Manufacturing Company Limited, in the year 1949, the business was later renamed Toyo Umpanki Co. before becoming recognized as the TCM Corporation. Founded by Mr. N. Niwa manufactured Japan's first forklift. Through the years, TCM lift trucks have become a global leader in lift truck manufacturing and have built a solid reputation with the trade. TCM began building forklift manufacturing locations outside of Japan in the 1980s and is now engaged in forklift manufacturer at three foreign factories in the United States, Europe and China.

With over 50 years of accumulated technology and expertise, TCM has been proudly manufacturing several models of industrial lift trucks, making their models recognizable all over the world. With an energetic and strong employees, TCM has been able to continually work towards becoming a future leading material handling business.
