

## Meritor Parts

Meritor Parts - Meritor is a premier international dealer that is proudly established on a 100 year custom of quality and service. They concentrate on different integrated systems, modules and components to original machine manufacturers and the aftermarket for the transportation and industrial trades.

Meritor prides itself in the company's distinctive energy and thinks that this particular energy contributes to their competitive advantage within the global operations. The business values all of their customers and wishes to guarantee their success while anticipating their different requirements. Meritor begins with a philosophy that values diversity of people and their broad thought processes. Operating in 19 nations and hiring over eleven thousand two hundred individuals, Meritor promotes innovation and collaboration amongst a team of knowledgeable experts.

Meritor strongly believes in just hiring future focused employees. These top-caliber workers can quickly adapt to changing surroundings and freely exhibit the level of commitment and performance needed to obtain results for the competitive market environment. The business empowers their teams to make sound business decisions in order to enhance the overall success of the business. In return, Meritor provides their workers various opportunities for professional and personal growth.

The Advanced Engineering team is on the forefront of components and system engineering. This comprises axles, drivelines, suspension and braking systems for medium and heavy duty trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the entire Asia Pacific region. This team is likewise responsible for supporting the requirements of their international engineering employees.

Meritor's customer focused and dynamic Quality team is committed to ensuring optimum processing at their production plants and aftermarket distribution facilities which are situated all over the world in 19 countries and in 5 different continents.

The supplier development network is specially situated to be able to support new business growth. Regional teams are supported by international quality systems, centralized specialties and initiatives in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a data-driven, fact-based method to decision making in each aspect of the company. The DFSS or Design for Six Sigma ensures product reliability within every region. The team is even comprised of transactional Green Belts who use Six Sigma tools to business processes and apply lean techniques.
