

## JLG Forklift Parts

JLG Forklift Parts - In the late 1960's John L. Grove, with his wife Cora set out on a cross country trip in their RV. Newly retired, after spending numerous years working with his brother to build their crane business into an market leader, John had no idea that momentous trip would allow JLG Industries, Inc to emerge. The world leader of mobile aerial work platforms and precision material handling equipment was the end consequence of a road expedition.

All through their trip, John reacquainted himself with previous business associates along the way. In combination with these conversations and a significant event; two workers were unfortunately electrocuted on scaffolding when the Groves were passing through the Hoover Dam. John uncovered a substantial marketplace for a product that could quickly and safely elevate individuals in the air to accomplish upkeep and other construction functions.

Upon returning from their travels, John established a partnership with two friends and purchased a metal fabricating business in McConnellsburg, Pennsylvania. In 1970, starting operations with a crew of twenty personnel, they manufactured and sold the first JLG aerial work platform. The company incorporates some of the simple design essentials of that original lift into current versions.

Since then, JLG Forklifts have come a long way from when Mr. John L. Grove came back from his fatefull cross-country trip and since the first JLG aerial platform entered the market. As of today, the business has expanded itself into a number of international marketplaces and continues to cultivate innovative machines to guarantee that clients are able to become safer and more efficient within their workplace.
